IADR
PULP BIOLOGY AND REGENERATION GROUP

TISSUE INJURY AND PULP REGENERATION

University Medical Center, Geneva, Switzerland
July 18 - 20th, 2010

www.geneva-2010.de
CALL FOR ABSTRACTS

This symposium will provide scientists and clinicians with information about the latest developments regarding pathology and regeneration of the dental pulp. We could win renowned researchers in the field for invited talks. Poster sessions will be designed from accepted abstracts. This small meeting offers ample opportunities to present and discuss new investigations, to interact and network. If you are involved in research on dental pulp injury and regeneration, we urge you to submit an abstract.

Deadline: May 05, 2010

POSTER AWARD

Young investigators are invited to submit abstracts. Poster awards will be given for the best two abstracts and poster presentations. The awards consist of a cash prize of €500.

REGISTRATION AND TRAVEL

PBRG-Member*: $150 (After June 1st, 2010: $200)
Non-Member: $250 (After June 1st, 2010: $300)
PBRG Student – Member*: $75
Student Non-Member**: $150
Accompanying Person: $50 (After June 1st, 2010: $100)

*including members of AAE and ESE

Flights from Barcelona to Geneva for €65 - €85

Register at: www.geneva-2010.de

TENTATIVE PROGRAM

Sunday, July 18, 16:00
Session I: Basics of Regeneration
Human Embryonic Stem Cells
Stem Cell Niches
Systematic Overview of the Developmental Principles Guiding Tissue-specific Regeneration

Marisa Jaconi
Tim Mitsiadis
Rena D’Souza

Monday, July 19, 9:00
Session II: Tissue Injury and Defense Mechanisms
The Microbial Challenge to Pulp Regeneration
Mediators of Inflammation and Regeneration
TLRs in Pulp Defense
TLR/LPS and Dental Monomers

Ashraf Fouad
Paul Cooper
Marie Jeanne Staquet
Gottfried Schmalz

Monday, July 19, 14:00
Session III: Tissue Injury and Cell Proliferation/Differentiation
Pulpal Progenitors and Dentin Repair
Pulp Stem Cells and Pulp Regeneration

Anne Poliard
Misako Nakashima

Tuesday, July 20, 9:00
Session IV: Tissue Engineering Aspects
In Vitro Dentin Generation:
The Pivotal Role of Supportive Cells
Angiogenesis in Pulp Regeneration
Scaffolds for Dental Tissue Engineering

Imad About
Jacques Nör
Kerstin Galler

Tuesday, July 20, 13:00
Session V: From Lab to Clinic
Chair: Gunnar Bergenholtz
Dentin Pulp Complex Regeneration:
From Lab to Clinic

Stephane Simon

PANEL DISCUSSION:
Pulp Regeneration: Clinical Questions to Scientific Answers

End: 16:00

SPONSORS

AAE - American Association of Endodontists
American Association of Endodontists Foundation
CED – IADR Continental European Division
ESE - European Society of Endodontology

Kuraray

Septodont

Maillefer
